News From Mount Nelso, From Idaho and Other Points-The Mining Exchange Still Comstose.

Owing to the beautiful weather and the on November 11, at 2 p. m. fact that January 1 is near, there is great activity in mining circles, especially in the line of assessment work. The Keystone is rapidly increasing its output, which is now from forty to fifty tons daily. It now ranks alongside the Centennial Eureka among the bonanzas. The new shaft is being sunk rapidly.

The Bullion-Beck continues its immense output, notwitustanding that a great deal of prospecting is being done in the mine at present.

All delinquent stock of the Wood River Mining and Milling company will be offered for sale on the 16th day of November next.

UTAH A DEMOCRATIC STATE. Extract From Senator Faulkner's Speech at

Following is an extract from the speech recently delivered by Senator Faulkner at Denver:

"I am afraid, my friends, the Democratic leaders of California will have a hard time to capture the state. It is the most corrupt state in the Union. Election after election has been bought by the railronds and political leaders. Unless the people take things into their own hands and put down the corruption it will be a long time take things into their own hands and put down the corruption it will be a long time till California is redeemed to a pure Democracy. Then we went to Utah. We recognize the fact that polygamy is now a thing of the past and hereafter the division will be drawn on party lines. Those people had never heard the doctrines of Democracy. We find throughout the territory prompt converts to the principles of Democracy. I have no hesitation to prophecy that when Utah is admitted as a state it will be as a Democratic state." [Applause.]
